

Attraction

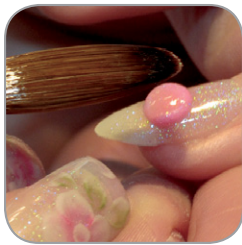

ACRYLIC SYSTEM

GO BEYOND FRENCH ENHANCEMENTS

STEP 1:

After prepping the natural nail, apply an **Precision Nail Tip** and file to an almond shape. Apply **Attract (Acid-Free) Primer** liberally.

STEP 2:

In Zone 3, press out a medium-wet bead of **Attraction Radiant Pink Powder** mixed with **Technailcolor Opal Shimmer Powder**. Continue to use a medium-wet mix ratio throughout. In Zone 2, use a mixture of **Attraction Purely Pink Powder** and **Technailcolor Glistening Rose Powder**, smoothing the bead into Zone 1 and lightly brushing into Zone 3. In Zone 1, use another custom mixture of **Attraction Purely Pink Powder** with **Technailcolor Glistening Rose Powder** and **Fuchsia Pink Powder**, slightly brushing back into Zone 2. Refine with an **Endurance 180/180 Grit File**. Remove excess dust with a **Nail Wipe** saturated with **Cleanse**.

STEP 3:

Apply a **Platinum Nail Form**. Use **Attraction Radiant White Powder** and press it up to, but not on top of, the already created almond shape. Continue pressing (you may need additional beads) up to the sides of the free edge. Wipe your **Royal Precision Brush** and smooth the outer edges of the newly created extension following the almond shape.

STEP 4:

Overlay the entire enhancement with **Attraction Totally Clear Powder**. Remove the form. Refine the sides and surface of the enhancement using an **Endurance 180/180 Grit File**. Remove excess dust with a **Nail Wipe** saturated with **Cleanse**.

STEP 5:

Apply **Glaze 'n Go** in polish style strokes and cure in any full hand UV lamp for 90 seconds. Apply **Nurture Oil** to the cuticle and massage in to complete the service.
